**A look at Lightning Protection
Dougal will try to fill some of the gaps in
understanding the what and how.**

**VK4RDD Antenna replacing
after lightning strike**

Although direct lightning strike and damage is rare they do happen.

Large voltage and current are involved in lightning strikes and many effects are seen, not just physical destruction of tall objects (like trees and buildings). Voltages and currents on the antenna, feedline and power systems often via the earth voltage surges can be very expensive.
