

Darling Downs Radio Club Inc

For the proposed operation of the Darling Downs Radio Club Inc in the Summer 2021 VHF/UHF Field day (16th January) there have only been 5 total expressed interest. As much of the gear and the Club Communication Trailer are at the Presidents address, it is proposed to operate portable from flat ridge top near his house.

If there are any more interested in operating with us please let the President or Secretary know, either by e-mail or phone.
