

Darling Downs Radio Club Inc

Second Monday of the Month

Management Committee Meeting

Monday May 8th 2023 7:00 pm

Community Venues, Level 3

City Library Building, Victoria St, Toowoomba

If you have any matters to raise please bring them to the attention of Management Committee or Steering Committee members

Followed By Social/Technical Talk at 7:30 pm

Talk by Dougal VK4EKA will present some pictures and video of the Darling Downs Radio Club Inc activities over the last few years.

Regular monthly talks, Social Lunches, Club Nets on air, Social outings and some Field Day Activities and more.

A photograph of a man with grey hair, wearing a dark blue shirt, standing in front of a projection screen. The screen displays a presentation slide with a blue background and white text. The slide title is "How does it work?" in a large, light blue font. Below the title are two bullet points. The first bullet point says "Uses Time Division Multiple Access (TDMA) to provide two 30 ms 'slots' per 12.5 kHz radio channel." The second bullet point says "Each slot can carry independent voice conversations – therefore each DMR repeater provides two simultaneous voice 'channels'." The text in the second bullet point is partially red. At the bottom of the slide, there is a red text overlay that reads "Previous DDRCi Talk at the library What is DMR by Bruce and Andrew".

How does it work?

- Uses Time Division Multiple Access (TDMA) to provide two 30 ms "slots" per 12.5 kHz radio channel.
- Each slot can carry independent voice conversations – therefore each DMR repeater provides two simultaneous voice "channels".
